

New company, innogy eMobility UK, hits the ground running

- **Karl Anders from Nissan takes up the helm**
- **Focus on technology products and services for corporate customers**

Essen/Swindon, 21 January 2019

innogy eMobility Solutions GmbH continues on its international growth path, by boosting its involvement in the UK market. Karl Anders has now been appointed Managing Director of its new subsidiary company, innogy eMobility UK Ltd, founded last year. He most recently worked for Nissan as their National EV Manager at Nissan Fleet.

Stefan von Dobschütz, CCO of innogy eMobility Solutions GmbH: “I am very pleased to have secured an acknowledged expert in the British electric vehicle sector as our Managing Director. With his excellent networks and extensive experience, he is well placed to expand the growth of our eMobility business in the United Kingdom. With Karl at the helm and our innovative solutions, we can now hit the ground running in the UK.”

Karl Anders has been a very successful force within the automotive sector throughout his entire career. “We have a wonderful, highly motivated team to carve out a successful future in this exciting market. I look forward to being able to offer our customers an attractive portfolio of products featuring state-of-the-art innogy technology. “

innogy eMobility UK acts as a technology and service provider with an extensive eMobility hardware and software portfolio. The company is a supplier to several major automobile manufacturers and has already started the roll out for the Audi UK dealer network.

energy more efficiently and improve their quality of life. The key markets are Germany, the United Kingdom, the Netherlands and Belgium, as well as several countries in Central Eastern and South Eastern Europe, especially the Czech Republic, Hungary and Poland. In renewable power generation, the company is also active in other regions, e.g. Spain, Italy and the USA, with a total capacity of 3.9 gigawatts. As a leader of innovation in future-oriented fields like eMobility, we are represented in the international hot-spots of the technology industry such as Silicon Valley, Tel Aviv and Berlin. We combine the extensive expertise of our energy technicians and engineers with digital technology partners, from start-ups to major corporates.
